

# Social Security Tracker

## About Social Security Tracker:

Social Security Tracker is a powerful investigative tool that provides up-to-date information on an applicant's past addresses and movement patterns based on an applicant's Social Security number (SSN). Social Security Tracker is an investigative starting point for a more complete background investigation that verifies and returns information on the applicant's SSN, full name, or alternate names used by the applicant, age/date of birth, dates at listed addresses and phone information. The results may be used to broaden the scope of criminal background checks by uncovering jurisdictions for more thorough criminal searches.

## Benefits:

- Reduces operational costs by identifying relevant jurisdictions for more targeted criminal searches
- Enhances applicant information that, when used with other screening measures, can help organizations make better decisions
- Saves time – all searches may be run automatically and instantly in a user-friendly application that provides easy-to-read reports

## How Social Security Tracker Works:

First, log into Safer Places' secure online ordering page and input your applicant's name and SSN. Next, click submit and instant results are delivered in a clean and concise format. It's that easy! Now you have the information needed to conduct your criminal court searches.

***For more information or to add this search to your screening package call Safer Places, Inc. at 508-947-0600***
